

TO: Prospective Transporter of Hazardous Waste

RE: Hazardous Waste Transporter Permit Application

The State of South Carolina requires that everyone transporting hazardous waste within the State be permitted per the South Carolina Hazardous Waste Management Regulations. Any transporter who passes through South Carolina and does not stop to accept or deliver any hazardous waste need not comply with our permitting regulations.

Each applicant must complete and return the following enclosed forms:

1. Application for Permit to Transport Hazardous Waste
2. Certificate of insurance

The certificate of insurance form must be completed and signed by an authorized representative of the insurance company (not an agent). We are requesting that you, the applicant, submit the Application and Certificate of Insurance to us at the same time. NOTE: WHEN APPLYING FOR A NEW PERMIT WE CANNOT AND WILL NOT ACCEPT ANY INSURANCE FORM OTHER THAN THE CERTIFICATE OF INSURANCE FORM WHICH IS ENCLOSED. THE ACORD FORM IS THE ONLY SUBSTITUTE ALLOWED WHEN SHOWING PROOF OF INSURANCE RENEWAL. IF THE INSURER CHANGES, OUR CERTIFICATE MUST BE SUBMITTED.

Permitted Hazardous Waste Transporters must ensure that their personnel complete a training program that is acceptable to the Department (see Section R.61-79.263.10(f) of the South Carolina Hazardous Waste Management Regulations, as amended November 23, 1990). The following constitute the Department's interim position on that which is acceptable training:

All personnel who are directly involved in the transportation of hazardous waste (i.e., drivers, terminal managers, shift foremen, etc.) must be provided appropriate training regarding the required procedures for manifesting (R.61-79.263 Subpart B). These procedures include the completion of the transporter's section of the manifest, distribution of manifest copies, and the assurance that manifests accompany shipments.

Furthermore, such training must include the appropriate response to hazardous waste discharges as specified in R.61-79.263 Subpart C. The aforementioned personnel must be trained to take appropriate and immediate action to protect human health and the environment in the event of a discharge.

Also, a record of training must be maintained in the individual's personnel file specifying the type of training received along with the dated signature of those persons receiving and providing the training. This record will be reviewed by Department personnel during inspections and also is subject to being called in for review by the Department on an as needed basis.

Compliance with the South Carolina Hazardous Waste Management Regulations for the transportation of hazardous waste does not imply compliance with any other South Carolina State Agency Regulations or Federal Agency Regulations. It may be necessary for your firm, under Section 58-23-10 et seq., of Chapter 23 of Title 58 of the 1976 South Carolina Code of Laws, to meet applicable South Carolina Public Service Commission Regulations and Federal Department of Transportation Regulations (49 CFR) will also govern interstate transporters.

After the forms are completed they should be returned to:

South Carolina Department of Health and Environmental Control
Bureau of Land and Waste Management
2600 Bull Street
Columbia, South Carolina 29201
